

Applications Engineer – Partial Discharge Solutions (m/f/d)

With more than 30 years of experience in Partial Discharge (PD) measurement, Power Diagnostix is a market leader offering the broadest range of products for portable, on-line, off-line, and monitoring PD solutions. To enhance our experienced team, we are looking for motivated and qualified employees to strengthen our team in Aachen.

Join our team!

Your tasks:

- Together with our international sales and distribution network, you develop solutions based on our PD portfolio
- You prepare and hold product presentations and trainings
- Jointly with colleagues from all continents, you take part in exhibitions, seminars, and conferences
- You provide technical and application support for our PD solutions to our international customers and sales channels
- In a fully guided process, you are also responsible for the solution delivery, while interacting with your customers to ensure the success of the project
- You can actively influence the system requirements and customer demand for portfolio optimisation
- You deliver valuable input to the product management and R&D to ensure the success of future developments

Your profile:

- A passion to grow your knowledge about partial discharge and high-voltage technology
- A university degree in a relevant engineering discipline (e.g., electrical engineering)
- Experience with partial discharge and/or high-voltage technology recommended
- Structured and goal-oriented way of working
- Experience with MS Office and ERP systems (e.g., SAP)
- Intermediate English as a minimum (the firm's business language)
- Further language skills and cross-cultural communication skills welcome

Your Benefits:

Power Diagnostix is a dynamic and international company in a growing market. You will work on a variety of interdisciplinary tasks during flexible working hours. We offer many options for personal and professional development while combining the benefits of a friendly environment with the possibilities of an international group of market leading companies.

Are you interested? Please contact our HR team for further information and send your application with curriculum vitae, your availability, and desired salary via e-mail to application@pdix.com.
