

Applications Engineer – Partial Discharge Solutions (m/f/d)

Location: Aachen

Working hours: Full-time

As a global operator, Megger is strategically located in over 100 countries. Our technology is at the forefront of enabling customers to monitor assets and networks. For our center of Excellence Partial Discharge (PD), we are looking for motivated and qualified employees to strengthen our team in Aachen.

With more than 30 years of experience in PD measurement, Megger Aachen is a market leader offering the broadest range of products for portable, on-line, off-line, and monitoring PD solutions.

Join our team!

Your tasks:

- Together with our international sales and distribution network, you develop solutions based on our PD portfolio
- You prepare and hold product presentations and trainings
- Jointly with colleagues from all continents, you take part in exhibitions, seminars, and conferences
- You provide technical and application support for our PD solutions to our international customers and sales channels
- In a fully guided process, you are also responsible for the solution delivery, while interacting with your customers to ensure the success of the project
- You can actively influence the system requirements and customer demand for portfolio optimization
- You deliver valuable input to the product management and R&D to ensure the success of future developments

Your profile:

- A passion to grow your knowledge about partial discharge and high-voltage technology
- A university degree in a relevant engineering discipline (e.g., electrical engineering)
- Experience with partial discharge and/or high-voltage technology
- Structured and goal-oriented way of working
- Experience with ERP systems (e.g., SAP) welcome
- High availability and willingness for international business travel
- Intermediate English as a minimum (the firm's business language)
- Further language skills and cross-cultural communication skills welcome

Megger is a dynamic and international company in a growing market. You will work on a variety of tasks during flexible working hours with options for home office and mobile work, including performance-based compensation, in a pleasant and friendly working atmosphere.

We are dedicated to growing you into an expert in PD applications. We offer a comprehensive induction plan as well as internal and external training courses.

Please **send your application** with **curriculum vitae**, **your availability**, and **desired salary** via e-mail to **personal@megger.com**
