

## **Electronics Technician for Devices and Systems (m/f/d)**

**Location: Aachen**

With more than 30 years of experience in Partial Discharge (PD) measurement, Power Diagnostix is a market leader offering the broadest range of products for portable, on-line, off-line, and monitoring PD solutions. To enhance our experienced team, we are looking for motivated and qualified employees to strengthen our team in Aachen.

**Join our team!**

**Your tasks:**

- Printed circuit board assembly
- Assembly of electronic measuring devices and related components
- Cable assembly
- Control cabinet construction for monitoring systems
- Device testing incl. documentation
- Preparation of work instructions and test protocols
- Inventory maintenance
- Clean, safe, and organized work

**Your profile:**

- Education in the field of electronics
- Experience in dealing with electronic assemblies
- Quality awareness and ability to work in a team
- Work experience desirable, but not absolutely necessary
- Good communication skills in German

**Your Benefits:**

Power Diagnostix is a dynamic and international company in a growing market. You will work on a variety of interdisciplinary tasks during flexible working hours. We offer many options for personal and professional development while combining the benefits of a friendly environment with the possibilities of an international group of market leading companies.

Are you interested? Please contact our HR team for further information and send your application with curriculum vitae, your availability, and desired salary via e-mail to [application@pdix.com](mailto:application@pdix.com).
