WATER LOSS REDUCTION

Strategies for Network Monitoring, Preliminary Location, Point Location, and Pipeline Detection. For Users, Planners, and Decision Makers.

Drinking water is becoming increasingly important worldwide as the most essential food resource. Every cubic meter of water loss leads to rising costs. Monitoring the key network parameters, applying the correct leak detection methods, and safely operating the measurement technology are essential prerequisites for quickly locating leaks in drinking water pipelines.

The training sessions provide participants with strategies for water loss reduction, as well as the fundamentals of leak detection, equipment operation, and practical application. They offer numerous opportunities for exchanging experiences with professional colleagues and the manufacturer.

Training Description

For Users (Code WX)

Practice-oriented instruction in comprehensive knowledge of equipment operation

- Theoretical Basics of Leak Detection
- Practical Exercises
- Practical Exercises
- Loss Reduction Strategies
- Zone Measurement, Preliminary Location, Point Location
- Software and Cloud Solutions
- Flow Measurement (stationary / portable)
- Noise Level Logger Systems
- Electroacoustic Listening Devices
- Introduction to Correlator Measurement Technology
- Pipeline Location

For Experts (Code WXE)

The content goes beyond typical user seminars, providing additional details and information.

Please bring

Training equipment will be provided by SebaKMT. **You are welcome to bring your own devices and use them during the practical exercise. Depending on the weather, sturdy footwear and appropriate clothing are recommended.**

Number of Participants

Maximum 20 people (registrations will be considered in order of receipt)

Contents	Dates	Duration	Location	Course-Code	Price in Euro ¹⁾
Users	26.08.–30.08.2024	4 Days ²⁾	Baunach	WX_EN0124	2.000,-

1) Prices excluding statutory VAT. Hotel costs are not included in the participation fee.

2) Start on the first day at 9:00 AM, end on the last day around 12:00 PM.

PARTICIPATION INFORMATION

Terms and Conditions

Registration

Registrations must be submitted in writing and signed. Please provide the following information: names and addresses of the participant and employer, travel by train or car, single or double room, arrival and departure dates. Registrations will be considered in the order of their receipt and will be confirmed by us in writing. The number of participants is limited. The data associated with the registration will be stored in compliance with data protection regulations.

Arrival

We recommend arriving at your hotel the day before the training begins. If you arrive later than 6:00 PM, please inform the hotel in advance (by phone).

For drivers:

You will receive directions to the hotel with your hotel confirmation.

For air travelers:

The nearest airport is Nuremberg. From there, take the subway or a taxi to the train station (approximately 45 minutes) and then a train to Bamberg (take a taxi to the hotel). Alternatively, you can fly to Frankfurt. From the airport long-distance train station, a train departs every hour to Würzburg, where you can transfer to a connection to Bamberg (take a taxi to the hotel).

For train travelers:

Purchase your ticket to Bamberg and take a taxi to your hotel.

Bus transfer:

Our contracted company provides a shuttle service between the training hotel and the training location. Please check the schedule.

Confirmation

Your registration becomes binding upon confirmation. You will receive a separate invoice for the participation fee, which is due immediately upon receipt.

Hotel

Unless you explicitly request otherwise, we will make the hotel reservation for you in Bamberg at your expense. We will provide you with the address about a week before the training begins.

Training evenings

On some days (see program), we invite you to a joint dinner and exchange of experiences. This is a rare opportunity to discuss and share experiences with many colleagues, including those from other countries.

Liability

Our liability is limited to the statutory provisions and does not extend beyond our company premises.

Costs

See the schedule and price overview (hotel costs are not included and must be paid directly by the participant to the hotel).

Registration deadline

Once the maximum number of participants is reached, no later than 4 weeks before the training begins (receipt by us).

What to bring

Since our professional training also includes practical exercises in the field and on our test tracks, we strongly recommend bringing rain gear and sturdy footwear. **You are welcome to bring your own devices. Otherwise, we will provide training equipment.**

Services

Participation in training, training materials, lunch, refreshments during breaks, bus transfer to and from the training hotel, invitation to evening events with cultural programs, free parking at SebaKMT premises.

Copyright

All provided training materials are for the personal use of the participant only. Reproduction is permitted only with the approval of SebaKMT.

Changes

SebaKMT reserves the right to make organizational and content changes for important reasons.

Your Cancellation

Withdrawal from the training must be made in writing and is free of charge if done in a timely manner. If the withdrawal occurs less than two weeks before the training begins, a cancellation fee of half the training fee will be charged. If a cancellation is received less than one week before the training starts or if a registered participant does not attend, the full fee will be charged. Any cancellation costs from the hotel must be borne by you. We do not charge fees for substitute participants.

Our Cancellation

If the number of participants is too small or for other urgent reasons, we reserve the right to cancel the training even at short notice. In this case, any training fees already paid will, of course, be fully refunded. Further claims for damages are excluded.

Photo and Film Recordings

Photo, audio, and film recordings will be made during the event, which will be published in various online and offline media. These recordings involve the visual representation of attending persons, with the selection of persons being random.

The images will be displayed on the homepage, print media, and social media channels of Megger/SebaKMT. By entering the event rooms, participants consent to the free publication and dissemination and/or unlimited storage and accessibility of the recorded image, audio, and film material as part of the public relations work of Megger/SebaKMT.

Personal rights are always respected. If the participant does not agree with the publication of their image in specific cases, we request immediate notification to the event organizers.

Trainings with High Practical Benefits

Winter is the most critical season for all water suppliers. Increased readiness to promptly detect pipeline damage is required, with every professional on duty. We used the winter period to modernize and expand our test track. Starting in 2024, there will be many new opportunities to train specialists, demonstrate, and test equipment:

- **New pipeline system for acoustic leak detection and monitoring**
- **Expanded systems for flow measurement**
- **Control center for fault simulation**
- **Data transmission for online monitoring**

Maximum learning success for our customers is guaranteed!
